Aggressive side-wall

Strong traction image of claw
Outline white letter may vary by size

- VARIABLE BLOCK SHOULDER DESIGN**
reduces tire noise while maintaining an aggressive look.
- LONG SWEEPING SIPES**
provide a multitude of biting edges for additional traction.
- FOUR WIDE AGGRESSIVE MULTI-ANGLED GROOVES**
allow for maximum water, mud and snow evacuation while aggressive biting block edges provide unparalleled all-terrain traction.
- SQUARE SHOULDER PROFILE**
features an aggressive stance and maximum traction.
- OPEN SHOULDER GROOVES**
effectively disperse water and debris in all weather conditions for both on and off road.
- HARD BEAD APEX**
provides sidewall stability.
- STIFF, EXTRA WIDE STEEL BELTS**
for stable on and off-road handling.
- JOINT-LESS NYLON BAND**
provides first-class ride comfort.

The **WILDPEAK A/T** reinvigorates the all-performance sport utility and light truck tire market through its aggressive stance and maximum traction. A symmetric five-rib pattern and rigid block design allows for ultra durability, exceptional on-road response and optimized off-road handling. Two stiff extra-wide steel belts enable stability, while four wide multi-angled grooves enable maximum water, mud and snow evacuation. Biting block edges provide additional, unparalleled traction and control. The WildPeak A/T is available in 15-inch to 24-inch applications, up to 37" overall diameter.
