PRODUCT FEATURES

SPECIALIZED AZENIS FK453 RUNFLAT TYRE PATTERN

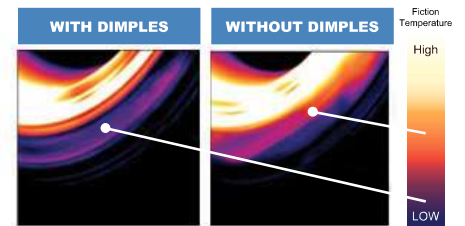

Increasing the rigidity of the tyre pattern on the outside of the tyre tread improves dry performance*4 while increasing the width of the grooves on the inside improves wet performance.

IMPROVES DRY PERFORMANCE.
IMPROVES WET PERFORMANCE.

DIMPLED SIDE

The arrangement of concave/convex dimples lining the tyre's inner side produce an improved cooling effect. This reduces heat damage when driving with a flat tyre* thereby improving overall tyre durability.

ON THE PULSE

NEO-T01

NEO-T01, is an acronym derived in the following manner. 'N','E' and 'O' represent the words Next, Elaborate and Orb respectively, and 'T' stands for Taiyo – which means the Sun in Japanese, and also represents technology and tyre.

The digits '01' signify that the said system is the first iteration of Sumitomo's next-gen tyre manufacturing technology.

- LIGHTER AND MORE COMPLIANT TYRES TO DELIVER A MORE COMFORTABLE RIDE.
- LONG LASTING DURABILITY.
